## L'ÉCOLE DE TECHNOLOGIE SUPÉRIEURE, L'UNIVERSITÉ TECHNOLOGIQUE

Établissement universitaire fondé en 1974, l'École de technologie supérieure (ETS) est une constituante de l'Université du Québec. L'ETS se distingue par un ensemble de caractéristiques (vocation axée sur l'ingénierie d'application et liens étroits avec l'industrie) qui font d'elle une véritable "université technologique".

### CERTIFICAT EN ASSURANCE DE LA QUALITÉ

- **Objectifs**

Le programme de certificat, de nature multidisciplinaire, vise à donner au candidat une compétence additionnelle le rendant capable dans le secteur industriel de son emploi de préparer et de mettre en marche un programme d'assurance de la qualité, d'apporter, lorsque nécessaire, les modifications requises à un programme existant et de superviser et contrôler les opérations relatives au domaine de la qualité.

- **Clientèle visée**

Les personnes se trouvant actuellement sur le marché du travail et occupant ou désirant occuper des fonctions techniques ou de direction dans le domaine de l'assurance qualité.

- **Conditions d'admission**

Être titulaire d'un diplôme d'études collégiales (DEC) dans un des programmes appropriés ou posséder des connaissances techniques appropriées, une expérience industrielle jugée pertinente et être âgé d'au moins vingt-deux ans.

- **Programme des cours**

Le programme est constitué de dix (10) cours de trois (3) crédits chacun (30 crédits au total), dont les matières concernent les grands sujets suivants:

- Assurance de la qualité
- Gestion de la qualité
- Probabilité et statistiques
- Contrôle statistique de la qualité
- Gestion et techniques d'inspection
- Informatique de gestion
- Méthode de l'analyse expérimentale
- La métrologie
- Fiabilité et maintenabilité
- Méthodes de communication
- Projet en collaboration avec l'industrie
- Un cours choisi dans le répertoire des cours de l'ETS

- 
- Pour plus d'information, appelez au bureau du registraire, (514) 289-8888 ou contacter le professeur Y. Youssef au département de la mécanique 289-8855.

**T**he Chairman and Officers of the Aviation/Space & Defense Division cordially invite you to join this vital and dynamic arm of the American Society for Quality Control. A Division dedicated to the proposition that America can compete with any industrial nation in any market— thru Quality!

**1) WHAT IS THE AMERICAN SOCIETY FOR QUALITY CONTROL (ASQC)?**

ASQC is one of the fastest growing professional societies in the United States. This is due largely to the significant interest in quality control principles in recent years. It represents every segment of American business. Current membership is approximately 50,000.

**2) WHAT IS THE AVIATION/SPACE & DEFENSE DIVISION OF ASQC?**

The Aviation/Space & Defense Division of ASQC (formerly the Aerospace & Defense Division) was established to promote, expand and develop the technology within the aerospace and defense industries. The division was founded by the American Society for Quality Control (ASQC) to meet the needs of quality professionals within these industries and to allow interaction with experts and peers.

**3) WHAT ARE THE FEATURES AND BENEFITS OF THE DIVISION?**

- Educational courses are offered through colleges, universities and technical institutes and the ASQC Education and Training Institute.
- Professional seminars are promoted and presented in conjunction with your local section.
- Industry and military quality standards and procedures are reviewed and commented on by the Division.
- Technical conferences are hosted annually at the Annual Quality Congress (AQC). The Division is an active participant at the Congress.
- Technical assistance is provided by fellow members. We are confident that whatever your questions, valuable assistance is available within our Division.
- To further assist you, we have regional counselors in each of the fifteen regions of ASQC. These experts are there to assist local sections in Division sponsored meetings in

obtaining speakers and establishing educational programs in your area.

- A newsletter is published by the Division several times each year. The first issue provides the name, addresses and phone numbers of the Executive and Committee Chairmen plus each Regional Counselor. This newsletter will keep you abreast of all significant Division events, announce future events and provide a continuing report of the latest information available in government and industry.
- Additionally, the Division sponsors Government/Industry Forums in several Regions. This Division of ASQC was instrumental in the conception and sponsorship of the highly successful conferences on Quality in Commercial Aviation.
- By joining, together with those professional colleagues in these specialized fields who are willing to exchange ideas, your growth and development will be heightened and personal satisfaction gained.

**4) WHEN DOES THE DIVISION MEET?**

- The Division has three (3) planning meetings annually.
  - Executive Board, Committee Chairmen and Regional Counselors meet during the Annual Quality Congress (May).
  - The Executive Board meets in late fall.
  - All Executive Board Members, Committee Chairmen and Regional Counselors meet during the first quarter of each year.
  - Interested members are welcome to attend any Division meeting.

**5) HOW CAN I BECOME A MEMBER?**

Simply fill out the application panel and return to ASQC headquarters in Milwaukee. They will then forward additional membership materials to you. Upon membership acceptance, the Division Membership Chairman will welcome you in the Division.

JOIN THE QUALITY PROFESSIONALS IN THE AVIATION/SPACE DEFENSE DIVISION OF ASQC.

Yes!

I AM INTERESTED IN JOINING THE AVIATION/SPACE & DEFENSE DIVISION OF ASQC.
