AN INTRODUCTION TO ISO 9000

An ASQC dinner meeting was held on the evening of December 11, 1991 with an introduction to the ISO 9000 series of standards being presented. The guest speaker for the evening was Mr. Denis Pronovost, who is well known for his expertise in this area. Mr. Pronovost, through his association with the Quality Management Institute and Academia Qualitas, has given numerous seminars and training sessions on ISO 9000 and quality management principles.

The level of interest for this meeting was clearly demonstrated by the number of people who registered to attend. Over 60 participants from locations as far away as Toronto, Ottawa, the Eastern Townships, and the better part of the greater Montreal region, were present.

As well, the growing appeal of the ISO 9000 standards was evident by the broad cross section of business and industry that was present. A sampling of the companies represented included Micom, ABB, Frank Horner, Johnson & Johnson, Royal Bank, Richmond Diecasting, Paramax Electronics, Bendix, Stelco McMaster, Seagrams, Northern Telecom, RGC Control, Institute for International Reserach, Bell Canada, Canadian Marconi, Keating Medical, Securiplex, Bioresearch, Norsk Hydro, McGill University, Avon and the MUCTC.

As an introductory overview to ISO 9000, Mr. Pronovost's presentation has probably generated as many questions as were answered, (if not more), and raises the possibility of further events in this area. Stay tuned to this newsletter for future announcements.
